

Financial Crises: Causes, Consequences and Policy Options
Introduction to a Special Issue of the
International Journal of Central Banking

This volume of the *International Journal of Central Banking* includes the proceedings from the conference titled “Financial Crises: Causes, Consequences and Policy Options,” hosted by the Hong Kong Monetary Authority and Hong Kong Institute for Monetary Research on May 17–18, 2012. In addition to the papers and discussions, this issue contains the prepared remarks given at the conference by Dong He (Executive Director (Research), Hong Kong Monetary Authority and Director, Hong Kong Institute for Monetary Research). The conference was organized by Douglas Gale, Rafael Repullo, Harrison Hong, and John Williams.
